

Kurt Vickery Monocot seed list August 2013

Welcome to the 2013 main seed list

I'm not going to winge about anything this year!. The high temperatures of mid summer have already had an effect and many things are flowering in profusion as I write *Pancratium* in particular but no doubt many autumn flowerers will have enjoyed the baking too.

I had two wonderful trips to Kazakhstan and Georgia respectively for Greentours, followed by a short but very sweet seed collecting trip to FYR Macedonia with Janis Ruksans and Henrik Zetterlund. There are one or two seed items from the latter in this list but I hope to introduce more of them in the coming seasons including - the beautiful and enigmatic *Fritillaria macedonica*. My main aim was to make a new gathering of *Tulipa scardica* but we were too late and there was no sign of it (Hang on does that count as a winge?)

All cultivated seeds are from hand pollinated and or isolated plants unless otherwise stated. W/C means wild collected, o.p. means open pollinated. Items marked with an * are in short supply. Those with a red * Should be sown immediately as they have short viability under normal storage conditions. Items marked ** are likely to sell out within hours of this list being e-mailed. *** Speaks for itself!

Numbers in brackets refer to the number of seeds per packet, some of these will be very few, so please pay careful attention to this before ordering. I will update stock levels each Sunday, just e-mail if you want to know. The latest info

Prices are £ Sterling

I CAN NOT accept non Sterling cheques. Cash is easier for me if paying in Euros or Dollars but overseas customers can pay by STERLING international money order if they prefer.

Please make out cheques to K.P.Vickery

If sending a cheque you may prefer to endorse it, Not to exceed 'X' number of pounds, 'X' being the anticipated maximum cost of the order, If you do this please leave enough space for me to fill in the actual amount
