

## *Pontus Wallstén Plants – Supplements list autumn 2015*

*Lilium canadense orange form*

Welcome to this short autumn 2015 supplements list – plants that are available in such small numbers or are very rare. In most cases, only one or two plants are available. I have therefore included them in this short list before listing them on my website.

(<http://pontuswallstenplants.smugmug.com/>)

For those of you interested in *Lilium* it has been a good year for species, many of which have just gone dormant after an excellent blooming this summer and overall good seed set as well due to the warm sunny summer, beneficial for pollinators. If the letters **SP** are indicated after the description of a species, this means you will most likely get a few seeds included of that species if you order bulbs of it.

As usual, orders can be e - mailed to : [pontus.wallsten@bluewin.ch](mailto:pontus.wallsten@bluewin.ch)

Prices indicated are in Swiss Francs and are per individual bulb/plant

## **The list**

### ***Ammocharis coranica***

Nice flowering sized bulbs of this spectacular South African bulb

Quantity available : 2 .....Price : 45 CHF

### ***Arisaema thunbergii ssp urashima***

Large FS tubers with offsets attached of this nice Japanese species

Quantity available: 10.....Price : 25 CHF

### ***Arisaema serratum var maybarae***

Nice specimen sized tubers of this almost black flowered Japanese species, will get slightly larger with time.

Quantity available : 3.....Price : 45 CHF

### ***Arisaema consanguineum silver leaf form***

Nice flowering sized tubers of an attractive form with pointed dark green leaves with the silver central stripe.

Quantity available : 4 .....Price : 30 CHF

### ***Arisaema taiwanense***

Very attractive multi divided leaves with a mottled stem. Nice FS tubers.

Quantity available : 4 ..... Price : 35 CHF

### ***Arisaema muratae***

Attractive and rare, similar to a yellow flowered consanguineum, but with very differently shaped tubers, more similar to taiwanense or dahaiense. Only 1 large FS tuber available at 65 CHF

### ***Cardiocrinum cathayanum***

Always slightly shorter than giganteum here, at most 150 cm's tall **SP**

1 large specimen sized bulb available ready to flower next year – 35 CHF

1 slightly smaller bulb 2 years away from flowering: Price: 25 CHF

### ***Cardiocrinum cordatum var ghlenii***

The dwarf Japanese species, 120 cm usually, but sometimes taller **SP**

1 large bulb ready to flower next year available : Price : 35 CHF

### ***Cardiocrinum cordatum***

The type species, producing slightly whiter longer flowers than var ghlenii.

Only one 6 year old bulb available, but very slow growing, so probably needing one more full year or two of good growth and feeding to reach flowering size. Price : 30 CHF

### ***Cyrthanthus falcatus***

These are very large specimen sized bulbs of this nice and unusual South African bulb.

Quantity available : 5 ..... Price : 25 CHF

### ***Ixia viridiflora***

Varying shades of turquoise blue with a purple black centre, these corms are all superb specimen sized after a very good growing season in rich sandy soil. Once the big corms sell out there will be no more this size until the offsets reach similar size in probably 2 years from now.

Large corms – quantity available : 10 .....Price : 15 CHF

Smaller corms, still possibly FS – quantity available : 6 Price : 8 CHF

### ***Lilium canadense orange form***

(Pictured first page). A nice orange form, vigorous that gave 6 flowers this summer, will probably give 12 next summer by judging from the bulb size. Only 1 large specimen sized bulb available Price : 45 CHF

### ***Lilium canadense redpink form***

This is not var editorum, closer to var coccineum, but verging on redpink in colour, stands out from other forms.

Only 1 FS bulb available..... Price : 45 CHF

### ***Lilium duchartrei***

Nice flowering sized bulbs of this attractive Chinese species   **SP**

Quantity available : 3 .....Price : 25 CHF

### ***Lilium superbum dark forms***

Very spotted dark orange red forms of this very nice USA species, all nice FS bulbs

Quantity available : 2 ..... Price : 25 CHF

### ***Lilium dauricum***

A nice upwards facing Chinese sp, usually goes dormant quite early.

1 flowering sized bulb available at 20 CHF

### ***Lilium martagon large flowered form***

This is a large flowered form with less recurved flowers which are light pink with darker spots. Very vigorous.                   **SP**

Only 1 large FS bulb available at 30 CHF

### ***Lilium regale***

Not rare, but these are exceptional huge specimen sized bulbs, most of which gave over 35 flowers a stem this year. It is not the average FS bulb you will find in bags in garden centers, in fact, these bulbs are so big that they would not fit in those bags! Very limited quantity of

these big bulbs available. 10-15 cm's across on average.  
**SP**

Quantity available : 4 .....Price : 35 CHF
